

Team leader (status 3)

**Make the schedule for all the people with the exact same team as yourself.
The slotsatus will be set to 3 by default.**

You can edit or add users (useful to update the supervisor, the office and workplace for example).

The "Team" tab indicate the condensed schedule for your whole team.

You can updgrade all the slots to a status of 3 (to forbid users with a status 1 or 2 to change their slots, after your weekly checks for example) The button is under the "schedule per user" table in the "Team" page.

If you hover with your mouse on the graphs, it will indicate the rooms occupied on the maps and the total number of person from your group in the lab at the given moment.
